Product Specification Sheet

Targus USB2.0 Docking Station with Video

Part #: ACP51EUZ

Product Description:

The Targus USB 2.0 Docking station with video provides instant peripheral device attachment via a USB 2.0 single connection, to your Windows based laptop computer. This expansion module enables your laptop computer to gain instant plug and play connections with multiple peripheral devices ensuring you are connected and ready to go. The "One Touch" interface allows users to quickly and easily connect to an external monitor, network, speakers, keyboard, mouse, printer and other USB devices in a matter of seconds. The Universal Docking Station provides greater flexibility to users as it is not laptop platform dependent.

When the laptop is placed on top of the docking station, its angled shape provides a more comfortable typing position and allows for better natural cooling of the laptop. Worker better and smarter with Targus docking solutions.
